Jill, Just a comment on these people who are bringing charges against Chief Freitas. Dan Chauvin was the dog officer for the Town for a very short time. He was let go by Ron Sander (interim admin. asst) because of his rudeness to employees (came into the office screaming at the girls because of an issue with the way he was paid) and because of threatening pet owners to such an extent that the public was afraid of him. Julie can probably fill you in on this more.

Mike Baril has always been a kid with problems who wants to be a police officer and therefore drives around with a car that makes him look like a police office. This has been a very long ongoing issue with the Police and Fire Department.

Wendy White's dogs chased one of their neighbors into their cars. The dogs circled the car growling at them and not letting them out of the car. This too has been an ongoing issue for several years.

All of these things happened while I worked at town hall. I am not sure why they are turning their anger against Chief Freitas (probably because he does his job)...

Just my comments on what is happening now. Of course I wish Chief Freitas the best in this situation. He really is a true professional and not one of the "good ole boys" who do special favors for special people.

Thanks for listening to my perspective. Sincerely, Judy Stocks
